

InfoPath 2007 Forms Pilot

The Office 2007 InfoPath Forms Pilot is an engagement with Proactive Performance Solutions, Inc., a Microsoft Gold Certified Partner, to deploy the Office InfoPath tool and provide expertise on how to leverage the functionality of InfoPath 2007.

Why Should Organizations Consider Using InfoPath 2007?

- InfoPath 2007 helps you obtain information quickly and reliably, enabling you to make informed and effective decisions.
- InfoPath 2007 helps you get the right information the first time by providing real-time validation, pre-populated fields, and connections to important sources of business information.
- InfoPath 2007 allows you to gather information so that it can be reused and shared across business processes throughout your organization.
- InfoPath 2007 provides you with a flexible way to collect information so you can adjust to changing business conditions.

What are the Details of the InfoPath 2007 Forms Pilot?

The InfoPath Forms Pilot is intended as an initial effort to assist you with implementing the new Office 2007 InfoPath forms technology. This service includes:

- Identifying an appropriate business process and the InfoPath 2007 forms to be developed
- Designing and developing new forms, and/or converting existing forms to the InfoPath 2007 technology
- Deploying the InfoPath 2007 Forms Pilot to your target environment
- Providing on-site technical support for the pilot users
- Gathering and documenting feedback based on the pilot results, and presenting findings and recommendations to identified personnel

What are the Benefits of the InfoPath 2007 Forms Pilot?

- A working example of how Office 2007 InfoPath forms solutions can be applied to your organization
- A solution deployed to your environment at a reasonable cost
- A starting point for the deployment of production applications using Office 2007 InfoPath forms

What are the Deliverables of the InfoPath 2007 Forms Pilot?

At the end of this service, you will have:

- A deployed InfoPath Forms Pilot
- A report of findings and recommendations
