

Office 2007 Workflow Proof of Concept

The Office 2007 Workflow Proof of Concept is an engagement with Proactive Performance Solutions, Inc., a Microsoft Gold Certified Partner. It is intended to model how Microsoft Office System 2007 technologies can be used to meet your particular workflow needs.

Why Microsoft Office Workflow?

Microsoft Office System provides support for automated business processes by making use of the new Windows Workflow Foundation. This means that you can automate many kinds of processes such as:

- Routing and approval
- Coordinating group tasks
- Issue tracking

What are the Deliverables of the Workflow Proof of Concept?

At the end of this service, you will have:

- A Proof of Concept application
- A report of findings

What are the Details of the Workflow Proof of Concept?

The Workflow Proof of Concept service offering from Proactive includes:

- Identifying an appropriate business process and the Office 2007 System tools needed to model this process
- Building a Proof of Concept and transferring it to your target environment
- Testing the Proof of Concept with a group of users
- Gathering and documenting feedback based on testing

What are the Benefits of the Workflow Proof of Concept?

The Workflow Proof of Concept will provide you with the following benefits:

- You will become familiar with the Microsoft Office System 2007 technologies and how they can fit your organization
- You will become familiar with the latest Office 2007 tools and what skills are required to use them
- You will better understand how workflow applies to your business processes
- You will have a starting point for the deployment of production applications using Office 2007

Top Reasons to Select Proactive as your Workflow Proof of Concept Partner:

- Microsoft Office System 2007 development expertise
- Customizable solution offerings
- Cost-effective solutions
- Key software partnerships
- Infrastructure Experts
- On-going support options
- Microsoft Gold Certified Partner

Next Steps:

Proactive offers the following additional services to help you prepare for Microsoft Office System 2007:

- Deployment Readiness Assessment
- SharePoint 2007 Migration Assessment
- InfoPath 2007 Forms Pilot
- On-going Support Services
