

Oracle to SQL Server 2005 Migration Assessment

The Oracle to SQL Server 2005 Migration Assessment is an engagement with Proactive Performance Solutions, Inc., a Microsoft Gold Certified Partner, to assess the effort, cost, and risk with migrating from Oracle to SQL Server 2005.

Using the SQL Server Migration Assistant for Oracle V2.0, Proactive will help you develop a roadmap for migrating to SQL Server 2005 within your unique environment.

Why would a Migration Assessment be of interest?

If you are considering migrating to Microsoft SQL Server 2005, the Proactive Oracle to SQL Server 2005 Migration Assessment will allow you to:

- Understand the scope of effort required to migrate your Oracle database to SQL Server 2005.
- Give you a breakdown of the key technical, operational and organizational barriers for the migration.
- Provide insights for a smooth transition to a SQL Server 2005 database environment allowing you to lower your total cost of ownership, and leverage the features and functionality of SQL Server 2005.

What are the details of the Migration Assessment engagement?

The Migration Assessment is the first step in migrating your Oracle database to SQL Server 2005. The Migration Assessment steps include:

- Using the SQL Server Migration Assistant to automatically assess the Oracle schema, data migration, business logic conversion, and validation effort.
- Performing an on-site review to assess Oracle-specific functionality, operational, configuration, and application issues.
- Creating a report based on the findings of the Assessment.

The Assessment will highlight the steps needed to perform the migration and will set the stage for a detailed migration plan.

How is the Migration Assessment delivered?

The typical Assessment delivery proceeds as follows:

- Proactive will come to your site and install and invoke the Migration Assistant on your Oracle database.
- Proactive will conduct on-site interviews with a previously identified DBA or manager of the Database service.
- Proactive will summarize, produce and deliver a report that will contain a characterized list of items necessary to address the migration as described in the previous section.

What are the deliverables of the Migration Assessment?

Your organization will receive a report that includes:

- The output from the Migration Assistant tool.
- Identification of technical issues not covered by the Migration Assistant tool.
- A summary of the key technical, operational, configuration and organizational Migration issues that effect the migration.

What investments are required?

Proactive will provide you a custom quote based on your specific needs.

What is the next step after the Migration Assessment?

Proactive offers additional services to ensure the successful migration to SQL Server 2005, including:

- Migration Planning Services
- Database Design Services
- Migration Implementation Services
- On-going Support Services
- .NET Application Development Services
- Developer Mentoring Services
